About me

A results-driven Computer Engineer with hands-on experience in software development, web applications, and technical instruction. Skilled in frontend web development, embedded systems, and interactive geospatial mapping using Leaflet and GeoServer shapefile integration. Demonstrates strong problem-solving skills in debugging, software testing, and hardware maintenance, alongside proven experience teaching AutoCAD and computer programming. Committed to delivering reliable, user-focused technical solutions in collaborative team environments.

CHENANIAH KEZIAH PASTRANA

Software Engineer

Work experience

2023 - 2024 | JESUS IS LORD COLLEGES FOUNDATION, INC.

College Instructor and Computer Technician

Served as a part-time College Instructor for the Bachelor of Science in Civil Engineering (major in Structural Engineering) program, delivering coursework in AutoCAD, Computer Fundamentals, and Programming. Concurrently held a contractual full-time role as a Computer Laboratory Technician with administrative staff duties, ensuring smooth laboratory operations, maintaining hardware and software systems, and supporting daily departmental administration.

2024 - 2026 | BUREAU OF FISHERIES AND AQUATIC RESOURCES (BFAR)

Computer Operator III

Served as a key technical contributor supporting the development team across all phases of coding and software design. Actively identified, analyzed, and resolved software bugs to improve system stability and performance. Conducted rigorous testing and validation on developed applications and programs to ensure optimal functionality, compliance, and user experience.

Education

2024-2025 | Bulacan State University

Masters of Science in Computer Engineering

2019 - 2023 | Bulacan State University

Bachelor of Science in Computer Engineering

Soft skills

Strong analytical and problem-solving abilities focused on system debugging and geospatial solutions, including integrating GeoServer shapefiles into interactive Leaflet web maps. Highly adaptable with a strong technical foundation in Computer Engineering. Excellent technical communicator with experience breaking down complex topics in AutoCAD and programming, combined with proven time management and cross-functional team collaboration skills.

Hard skills

Programming Languages: Embedded C++, Python, Java
Frameworks & Web Tech: Angular, Node.js, Tailwind CSS, MySQL
Geospatial & Mapping: Leaflet, GIS Integration, Mapping Applications
Engineering Tools: AutoCAD, Arduino Uno
Software & Systems: System Debugging, Testing & Validation
Multimedia Production: Photo & Video Editing, Videography
Office Applications: Microsoft Office Suite
